About Me

- Biology major graduate who excels in lab-based courses in both Biology and Chemistry. Demonstrated a passion for medicine and scientific study as indicated in volunteer work with veterinary clinic and at hospital. Keen to understand and constantly progress person knowledge through learning new skills and techniques. Devoted to the environment and the understanding of ecosystems. Looking to create a strong base for a career in biology or environmental sciences.

Experience

Chilliwack Cattle Sales, Chilliwack, BC

Farm Hand (2015 – Present)

- Oversaw the day-to-day objectives/requirements of livestock.
- Collaborated between farms for the transport and wellbeing of livestock.
- Discerned livestock wellbeing and when needed addition treatment was required.
- Aided in increasing productivity and streamlining of workflow.

Abbotsford Veterinary Clinic

Veterinarian Job Shadowing (2017-2018)

- Provided high quality preventive care, diagnosis, and treatment for the herd.
- Supported in treatment and follow-up for surgical methods ensuring patient well-being.
- Managed diagnosis of many patients at once, under distracting conditions.
- Performed highly precise techniques under in a time-sensitive manner while under pressure.
